IN RE WORLD TRADE CENTER
DISASTER SITE LITIGATION

SCHEDULING ORDER

21 MC 100 (AKH)

-----X

ALVIN K. HELLERSTEIN, U.S.D.J.:

I have received the proposed severity charts prepared jointly by the Special Masters and the parties. I have received in addition submissions from the parties reflecting their comments and objections to the proposed severity chart. I have reviewed all of the submissions and my tentative view is that Chart One should be approved in its current form, while Chart Two should be split into two separate charts: one chart for medically-demonstrated impairments that have since been resolved, and one chart for alleged impairments with no, or with inadequate, medical documentation.

The parties shall appear for a status conference on September 16, 2008 at 3:00 pm. At this conference, I will hear from the Special Masters regarding the development of the chart, and hear the parties' views to the extent that they differ from those of the Special Masters. The form of the severity chart will be finalized at, or directly following, the conference.

SO ORDERED.
